More About Lindsey

Lindsey focuses her practice on insurance litigation in Minnesota and Wisconsin state and federal courts—representing insurers in first-party coverage disputes, defending insurance agents against negligence claims, and defending insureds in liability matters—along with product liability defense. Early legal analysis, clear communication, and thorough fact investigation are hallmarks of her approach. She anticipates issues and acts quickly to develop persuasive arguments and bring a prompt, fair resolution to her clients' disputes, whether through early motion practice, summary judgment, trial, or appeal.

Lindsey's work spans the full life of a case, from pleadings and dispositive motions through trial and appeal. Recently, she helped secure a defense verdict for an insurance agency, and she has contributed to favorable decisions before the Minnesota Court of Appeals.

As a prolific writer, Lindsey is adept at analyzing voluminous and complex information and translating it into comprehensible terms that help clients understand and participate in their cases. She dives deeply into strategy, research, and the competitive landscape to develop a well-rounded approach that defends every angle.

Practice Areas
